Camera-ready Papers Preparation Instructions for the Workshop
Intelligent Data Acquisition and Advanced Computing Systems:
Technology and Applications
(IDAACS’2005)

First Author's Name 1), Second Author's Name 2)
1) Affiliation, Postal address, e-mail, Web address (URL)
2) Affiliation, Postal address, e-mail, Web address (URL)

Abstract: This document presents the required layout of papers to be submitted for publication in the proceedings of the Workshop “Intelligent Data Acquisition and Advanced Computing Systems: Technology and Applications” (IDAACS’2005). The abstract may not be longer than 150 words.

Keywords: - Leave one blank line after the Abstract and write your Key-Words (3 - 5 words)

1. PAPER SIZE
The authors should submit 4-6 MS Word pages of camera-ready paper (in English only) by e-mail. Use A4 (210 x 297 mm) format of the paper. Leave 20 mm margins at the top, bottom, left and right sides. The camera-ready paper size should be NO MORE than six pages. Authors are strongly recommended to fill the last page of the paper at least up to the 2/3 of sheet. Please, don’t use numbering pages in your papers.

2. LAYOUT
The text should be typed single-spaced. Use Times New Roman typeface throughout the paper.

Center the title (16 points, bold), author(s) name(s) (12 points, bold), affiliation(s), address(es), e-mail and Web/URL (12 points, regular). Leave one blank line below the title, and affiliation(s).

Then put short abstract of the paper use Italic (no longer than 150 words). For word Abstract use Bold Italic. After it insert one blank line.

Below insert a list (preceded with one and followed with two blank lines) of up to 10 keywords. For the word Keywords use Italic.

Type the text of the paper (10 points, regular) in two columns 82,5 mm wide, separated with a 5 mm space. Balance the length of the columns, especially on the last page of the paper. Each column should be justified. The first line of each paragraph is to be indented 5 mm. Headings must be numbered. Do not use Roman numbers. Use only one level of headings (12 points, bold) and precede each of them with one blank line.

Place a full list of references at the end of the paper. Please place the references according to their order of appearance in the text. Enclose the numbers in square brackets.

3. EQUATIONS
Equations should be placed in separate lines and numbered. The numbers should be within brackets and right aligned. Please set in Microsoft Equation following fonts: Regular – 10 pt, Large index – 6 pt, Small index – 4 pt, Large symbol – 16 pt, Small Symbol – 10 pt. Leave one blank line above and below each equation. For example, the line expression

\[ y = a \cdot x + b \]  

(1)

where \( a \) – coefficient, \( x \) – argument, \( b \) – bias.

4. FIGURES AND TABLES
The figures and tables must be numbered, have a self-contained caption. Figure captions should be below the figures; table captions should be above the tables. Also, avoid placing figures and tables before their first mention in the text.

The text of figure captions should be 9 points high and bold. Use spacing of 6 points before and after. Leave one line after the tables unless a section title follows. Table captions should be left aligned and figure captions should be centered. Large figures and tables may span both columns. Leave one blank line before the caption of the table. Do not indent the captions. Do not use characters smaller than 9 point in figures.

All the figures, graphs and photographs should be numbered and referred in the main text. Abscissas and ordinates of all graphs should be labeled with symbols and units as in Fig.1.

Use the abbreviation "Fig." even at the beginning of a sentence. The text in the figures may be Times New Roman.

Do not use abbreviations in the titles unless they are unavoidable.

![Fig.1 – Example of a graph. Note how the caption is centered. All figures, graphs and photographs must be in black and white (or gray shades).](image-url)
Font sizes to be used in various parts of the paper are summarized in Table 1.
