```
COS 226 Fall 2009 Class Exercise 9 4 questions; 4 pgs. Due 2009-10-01 3:15 p.m.
(c)2009 Sudarshan S. Chawathe
```

1. List the members of your group below:
2. Depict the red-black tree resulting from the sequential insertion of

$$
1,2,3, \ldots, 10
$$

into an empty tree, using bottom-up insertion. All intermediate trees need not be depicted, but it is advisable to depict at least a few. In this question, and those following, use the exact algorithms described in the textbook. ${ }^{1}$

[^0][additional space for answering the earlier question]
3. Repeat Question 2 with top-down insertion.
4. Delete each of the following keys (in given order) from the final tree of Question 3. Depict the state of the tree before and after each transformation required by the deletions.
$9,3,1$
