

This exercise augments class discussion on connections between project work and topics covered in various courses.

1. List the members of your group below. Underline your name.
2. Using the *onion of tasks* from earlier work, identify five tasks in your project that have the strongest connections to topics covered in courses you have taken or plan to take. Briefly describe each task and how it relates to course topics.

3. Repeat Question 2 for other projects, identifying them.
