

1. List the members of your group below. Underline your name.
2. If you have a Capstone project in mind, describe it briefly. Otherwise, outline some topics that interest you for projects.

3. If you have a Capstone project advisor, write his or her name and an indication of whether the advisor has confirmed the work, if work has begun, etc. Otherwise, list the names of potential advisors and indicate how and when you plan to contact them.

4. What is the onion model for projects? How is it used? What is the desired granularity of tasks it models?

5. List five features of all good Capstone projects.

6. List five features, different from those above, of projects of interest to you.
