An extended example of skew-heap insertions

Sudarshan S. Chawathe

2016-11-13

The following figures depict the sequence of skew heaps obtained by inserting the following keys, in given order, into an initially empty min-heap. (The keys were selected randomly in the range $0, \ldots, 99$ and include a few duplicates.)

```
70 78 43  7 15    57 25 59 35 22    70 50 31 57 32    65 78 16 78 64    27 21 28 74 49
28 68 44 14  7    60 79 70 86 66    74 35 82 48 93    74 48 34 34 81    81 49 21 63 41
```
